COLLEGE STUDENT | ASPIRING FULL STACK DEVELOPMENT

Aspiring Full Stack Developer and AI & DS student at Velammal Engineering College (Batch 2023–2027) with hands-on experience using Python, JavaScript, React, Node.js, Express, MongoDB, MySQL, and Java. Passionate about building efficient, user-focused applications and contributing to impactful projects. A dedicated team player with strong communication and decision-making skills, currently contributing as a Frontend Developer to my college website development team. Seeking an internship or entry-level opportunity to apply my technical expertise, enhance my skills, and grow as a professional developer in a collaborative environment.

STRENGTHS AND EXPERTISE

Quick learner with adaptability to new technologies

Committed, self-motivated, and responsible in project execution

Ability to work under pressure and meet deadlines

PROFESSIONAL EXPERIENCE

Velammal Engineering College, Chennai

Jan 2025 – Present

Frontend Developer – College Website Development Team

I have been working as a Frontend Developer in the College Website Development Team at Velammal Engineering College for the past eight months. During this period, I contributed to the successful launch of the college's official website by developing responsive and user-friendly interfaces. I collaborated with backend developers to ensure smooth integration of APIs and database functionalities. Currently, I am actively involved in the second phase of the website's development, focusing on enhancing performance, improving user experience, and adding new interactive features to make the platform more dynamic and efficient.

Accomplishments:

- Successfully contributed to the development and launch of the official Velammal Engineering College website.
 - Collaborated effectively with backend developers to ensure seamless API integration and smooth data flow.
 - Utilized GitHub for professional version control and team collaboration, maintaining a clean and efficient development workflow.
 - Completed learning the MERN stack (MongoDB, Express.js, React.js, Node.js) and applied it in real-world web development projects.
-

PROJECTS

- JOB RECOMMENDATION SYSTEM - Python
